

Dear FCC,

I am not happy with the change of time for Sorenson VRS operating time. I usually like to use the VRS sometime during evening, evenly want to call during weekend, and it trap me not for contacting anyone. Even when I recently promoted to supervisor, working for "The GoodTimber Company", and it is necessary to have the VRS service available for my employees who is working under me that contact me through this wonderful VRS system. Please give VRS operating system more hours, and I will be appreciate that. Thanks
